G250F Photoluminescent Pathmarking Tape

The G250F Photoluminescent Pathmarking Tape is a highly visible strip that fits a variety of photoluminescent pathway marking applications. It will increase visibility and enhance egress speed in all light conditions. The non-radioactive, non-toxic photoluminescent strip is visible for many hours after the lights go out, having been charged from sunlight or artificial light.

**General Information:**
- Photoluminescent PET Tape
- 1" x 60 feet per roll
- Weight: 0.78 lbs/Roll.

**How to Install:**
- Installation surface should be smooth, cleaned of any contaminants and completely dried before tape is applied.
- Fresh paint must be allowed to cure before tape is installed. Loose paint must be removed from painted surfaces.
- Surface preparation is required. Do not stretch tape when applying on installation surface.
- At room temperature, the adhesive takes at least 24 hours to gain maximum bond strength.

**The Ecoglo G250F meets the following Building, Fire & Life Safety Codes:**
- IBC/IFC 2009, 2012 (Section 1024 – Luminous Egress Path Markings) and 2015 (Section 1025)
- NFPA 101-2009 and 170-2009
- NYC LL 141 of 2013 (Section BC 1024 Luminous Egress Path Markings)
- NYC LL 26 of 2004 Reference Standard 6-1
- California Building Code Section 1024 Exit Passageways
- Connecticut State Fire Safety Code Section 1026 Floor Proximity Egress Path Markings

**Benefits and Technical Details:** Ecoglo G250F meets or exceeds the performance criteria specified in the following tests or standards:

**Brightness**
- High visibility in dark or light conditions.
  - UL 1994 Listed – IMZI.SA3353
  - UKLC 572 Listed – IMZI7.SA3353

**Washability**
- Easy Cleaning.

**Radioactivity**
- No radioactivity or toxicity.

**Flammability**
- Does not burn.
